Kenny Quach

Fullstack Developer

Innovative team player with a passion for continuous learning and over two years experience in development. Coming with sound knowledge of the app life cycles and the ability to implement backend technologies with frontend user interfaces. Recently back to job seeking status in hopes of finding a role that will also allow me to incorporate newly acquired Java tech stack knowledge

EXPERIENCE

Advanced Technology Solutions, Manalapan, NJ — Fullstack Developer

Oct 2019 - Apr 2020

- Integrated Autotask ticketing system with several SAP technologies including Concur to track expense items and costs
